

THE 561 FACE OF CUSTOM LUXURY HOMES

ELLISH BUILDERS RON ELLISH PRESIDENT & CEO

From a young age, **Ron Ellish** watched his grandfather, father and uncle build custom homes in New York. In 1979, his dad moved to Florida, and Ron followed in pursuit of carrying on the Ellish family legacy.

Ron immediately joined the local Home Builders Association and met many important contractors and developers who gave him invaluable insights into the construction and sales of single-family homes in the area.

“Through those relationships, I was invited to build in multiple Arvida communities: Millpond, Boca West and Weston. I became president of the local Builders Association in 1982, president of the state association in 1992, elected to the Builders Hall of Fame, and have received Builder of the Year honors. This helped our business evolve. We’ve got a great reputation because we do things the right way, and we strive to give clients a five-star experience,” he says.

“We build custom homes in exclusive golf course, gated and waterfront communities throughout Palm Beach County and offer major home renovation services. We are currently developing a unique new community in Delray Beach called Delray Ridge, a private gated community of 14 luxury homes on North Swinton Avenue. Homes start at \$3 million, and some will have the option to have a basement.

We are very creative and passionate about what we do—with our process, our team and our execution enabling us to make each client’s dream home a reality,” says Ron.
