Welcome to the new era of Ellish.

A GENERATIONAL COMPANY BUILDING FOR GENERATIONS TO COME

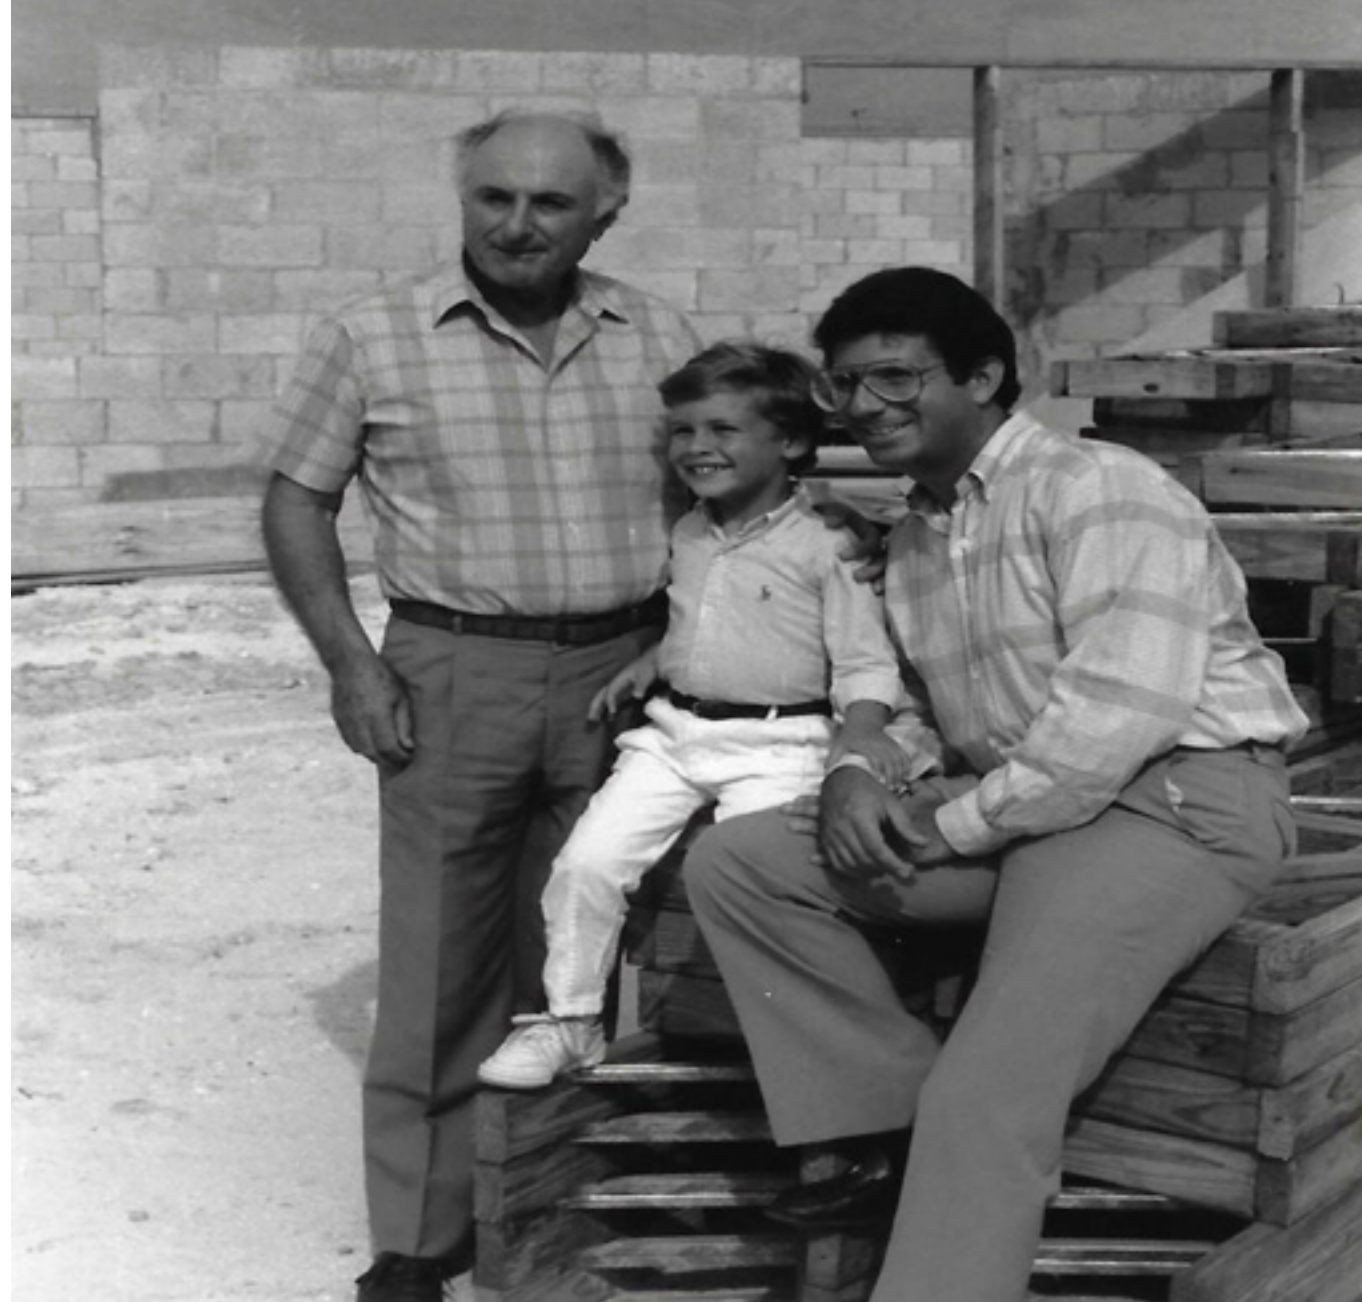

Ellish Builders has been a leader and innovator in homebuilding and community development since 1936 when Alfred Ellish began by building homes in upstate New York. Admiring his father's workmanship and learning the craft himself, Alfred's son, Mort Ellish, brought the family business to South Florida with a vision to expand Ellish Builders and to someday work alongside his own son. In 1979, that dream was realized when he brought his son and Alfred's grandson, Ron Ellish, on board; with building in their DNA, the three generations came together to uphold the values of fine craftsmanship and old-world service that Alfred had established decades before. Ellish Builders became known and trusted as one of South Florida's premier custom homebuilders.

Today, and now in its fourth generation, the company is led by the father-son team Ron and Matt Ellish, a forward-thinking visionary partnership in the luxury residential sector. Honoring his grandfather and great-grandfather's legacies, Matt holds steadfast to the standards of excellence with which the Ellish name has always been synonymous and leads a company committed to providing a best-in-class luxury homebuilding experience.

BORN OUT OF LEGACY—BUILT FOR YOUR LEGACY

The Ellish name brings with it a stamp of excellence rooted in decades of luxury development projects that continue to appreciate and enjoyed by the children and grandchildren of our trusted clientele. As we enter our 87th year in the industry, led by our fourth generation of Ellish Builders, we operate by the very same ethos that has guided us since our inception—an unwavering dedication to impeccable service, exquisite workmanship, and to crafting the kinds of homes that become an integral part of our clients' legacies. A multi-generational business that values family ties and lineage, Ellish homes are built to be woven into the fabric of the families who live in them—for generations to come.

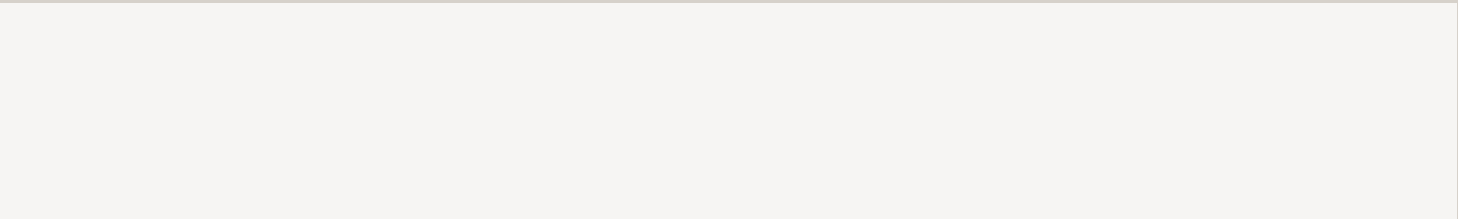

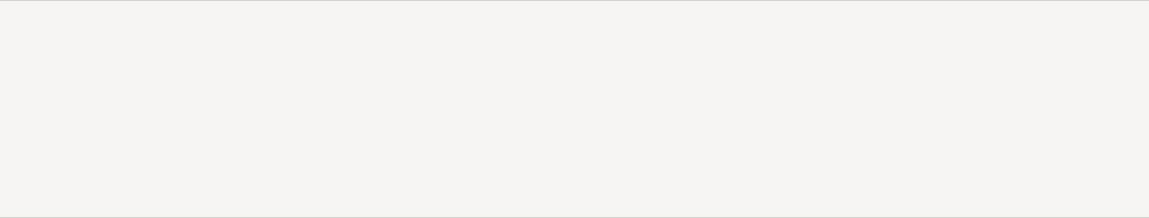

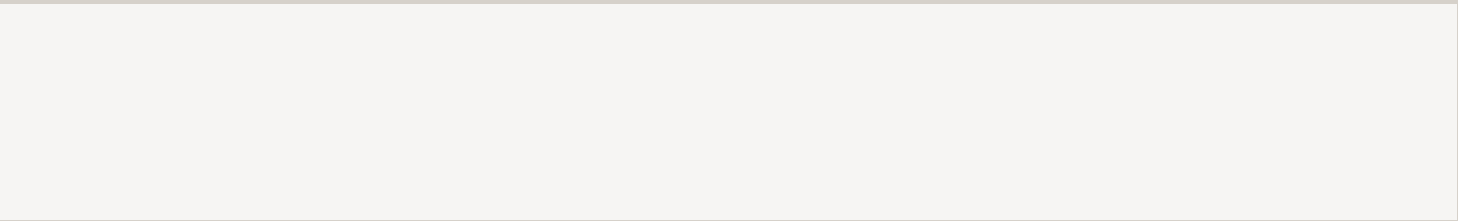

MEET RON ELLISH CEO

Continuing the legacy of both his father and grandfather, Ron Ellish has been dedicated to innovative craftsmanship and quality construction since 1979. His respected projects, both in custom home building and community development, span across Palm Beach and Broward Counties and have changed the landscape of homebuilding in South Florida. Holding a Bachelor of Arts in Accounting from the University of Rhode Island and state licenses as a General Contractor and Florida Real Estate Broker, Ron brings a multi-faceted mastery to every building venture. He is the recipient of numerous industry awards and honors, including Builder of the Year multiple times, most recently in 2022, and is Past President of the Florida Homebuilders Association and the Florida Atlantic Builders Association.
